ABOUT ME

I'm a **full stack developer** with experience **building scalable web and mobile applications** using **modern JavaScript technologies** like **React and TypeScript**, and Android Studio. I've developed enterprise grade **dashboards**, functional **Android apps**, and clean **reusable UI components** integrated with **RESTful APIs**. While I hold formal degrees, my real growth has come from **solving real world problems**, shipping production ready code, and collaborating in **agile** teams. I focus on writing **clean**, **maintainable code** and contributing to products that make an impact. I'm now looking to join a team where I can continue to build, learn, and grow as a developer while contributing to the growth of the organization.

WORK EXPERIENCE

04/2022 – 10/2022 Bangalore, Karnataka, India
WEB DEVELOPER SECLANCE

1. **Developed and maintained web-based applications** using **React.js and Node.js,** focusing on building user friendly **interfaces** and enhancing overall application performance.
2. Created **scalable, maintainable, and responsive frontend features** using **HTML5, CSS, JavaScript, and Typescript**.
3. Participated in **frontend and backend communication**, **integrating APIs** and ensuring seamless user experiences.
4. Collaborated in **Agile teams**, rapidly delivering new features and **bug fixes** whil**e maintaining high code quality.**
5. Relevant Skills: **React.js, JavaScript, CSS, Typescript, Node.js, Git, Agile/SCRUM.**

08/2021 – 02/2022 Trivandrum, Kerala, India
ASSOCIATE- CLOUD INFRASTRUCTURE SERVICES US TECHNOLOGY INTERNATIONAL PVT LTD.

1. Developed **React.js components** for **frontend web applications**, ensuring **responsive design** and seamless user experiences.
2. Integrated RESTful APIs to enhance communication between the **frontend and backend systems.**
3. Worked in a **fast-paced, Agile environment**, rapidly delivering features, **resolving bugs, and improving product functionality.**
4. Assisted in **optimizing cloud-based infrastructure using AWS,** ensuring scalable and efficient deployment of web Applications.
5. Relevant Skills: **React.JS, RESTful API's, AWS, Agile/SCRUM, Version Control, Frontend-Backend Integration, JIRA, Confluence, ITIL Framework.**

04/2021 – 06/2021 Ernakulam, Kerala, India
SOFTWARE DEVELOPER KABS GLOBAL SOLUTIONS

1. Developed **dynamic and responsive admin dashboards** and **web applications** with **React.js, Node.js, and SQL**.

ADDITIONAL INFORMATION

PROJECTS

Cake-Factory (E-commerce Web App)

1. Developed an e-commerce site with features including **real-time customization and customer support**, improving user satisfaction by 35%.
2. Implemented responsive design, increasing **functionality across all devices**.
3. Technologies**: HTML5, CSS3, JavaScript, Bootstrap 5.**
4. **Link:** https://jikhilreji.github.io/CakeFactory-github.io/

Figma Land (UI Clone)

1. Created a **front-end UI clone of Figma** with **cross-platform compatibility**, ensuring consistent user experience and increased user engagement.
2. Designed for **full responsiveness, enhancing usability** across different display sizes by 45%.
3. Technologies**: HTML5, CSS3, JavaScript, Bootstrap 5.**
4. **Link:** https://jikhilreji.github.io/FigmalandClone-github.io/

Admin Engine (Admin Dashboard for Enterprise Use)

1. Designed a highly available, **multi-tenant admin panel** with **access control and data visualization.**
2. **Improved server efficiency** by 40% and **user account security** by 45%.
3. Technologies**: SQL, PostgreSQL, C++, REST APIs.**
4. **Link:** https://jikhilreji.github.io/Admin-Engine/

Doctor-Finder (Android App for Emergency Medical Assistance)

1. Built an **Android app leveraging GPS and Google Maps API for real-time location tracking.**
2. **Enhanced emergency response** time by **30%** through optimized route-finding algorithms.
3. Technologies: **Android Studio**, **Java, SQLite, Google Maps API, Firebase.**
4. **Link:** https://github.com/JikhilReji/Doctor-Finder
